

# Basecamp

**Basecamp** je jedan od najpopularnijih alata za vođenje projekata i karakterizira ga mogućnost arhiviranja svih projekta, podataka i ljudi na jednom mjestu bez obzira na broj. Nakon što je projekat dovršen moguće ga je arhivirati u Basecampu tako da mu se može pristupiti u budućnosti. Svi/e članovi/ce tima mogu da rade zajedno i moguće je u svakom trenutku provjeriti kome je dostupan koji projekat. Svi/e članovi/ce tima mogu se grupisati npr. po odjelima ili zaduženjima na projektu. Svi važni dokumenti mogu se priložiti unutar projekta jednostavnom „drag and drop metodom“ s desktopa u preglednik. Basecamp također omogućava izradu zajedničkog projektnog kalendara u kojem su prikazani svi poslovi koji su ili trebaju biti obavljeni, kao i osobu ili grupu koja je za njih zadužena. Postoji velik broj službenih i neslužbenih dodataka na sam Basecamp, i ti dodaci su u obliku web usluga kao i mobilnih i desktop aplikacija. Također, postoji i web usluga i dodatak za Google Chrome preglednik nazvana cloudHQ za Dropbox koji omogućava Basecamp korisnicima/ama da sinhroniziraju Basecamp projekte s Google Drive i Dropbox skladištem.

I just wanted to mention that The Distance has become one of my favorite podcasts. I appreciate the stories and the production quality. Nicely done.
