

Microsoft Teams

Microsoft Teams je novi radni prostor zasnovan na komunikaciji i u usluzi je Office 365. Microsoft Teams objedinjuje osobe, razgovore i sadržaj, zajedno sa alatima koji su neophodni za lakšu saradnju. Microsoft Teams podržava individualne, odnosno privatne razgovore kao i razgovore u grupama gdje je konverzacija vidljiva svima unutar jedne grupe. U okviru razgovora se mogu razmjenjivati linkovi, dokumenti i slike, a takođe se mogu zakazati audio ili video sastanci, zatim snimiti video ili audio pozivi, dijeliti ekran i prema potrebi prenijeti kontrolu (admin ovlaštenja) na drugu osobu koja je uključena u konverzaciju. Istovremeno je moguće povezati se sa 10 000 osoba, a prilikom video poziva istovremeno voditi i chat zabilješke. Microsoft Teams objedinjava cjelokupnu uslugu Office 365 prilikom čega je moguće koristiti alate poput Word, Excel, PowerPoint, SharePoint, OneNote, Planner, Power BI i Delve. Microsoft Teams pruža napredne mogućnosti za bezbjednost i zaštitu podataka. Podaci se šifruju prilikom prenosa i u stanju mirovanja. S obzirom da su alati Office integrисани u Microsoft Teams, moguć je istovremeni rad više osoba na uređivanju istog dokumenta, a takođe postoji i mogućnost prenosa snimke i bilješki sa sastanaka u isti folder sastanka u aplikaciji Teams kako bi se obezbjedilo jedno mjesto za zapis i dokumentovanje.

[Međunarodno udruženje "Interaktivne otvorene škole"](#) organizuje vebinar kako koristiti ovaj alat. Vebinar je namijenjen nastavnom osoblju više škola ili jedne škole.

Sadržaj je prilagođen potrebama polaznika/ca naročito u slučaju interesa jedne škole.

Možete se prijaviti putem linka: [PRIJAVA](#), kako bismo Vas blagovremeno obavijestili o terminu održavanja.

Minimalna grupa za održavanje vebinara je 15 prijavljenih učesnika/ca. Ako ste zainteresirani kao škola, a imate manje od 15 polaznika/ca javite nam se za dogovor.

Daphne Knowles Can someone please point me to the latest FY2017 strategy presentation? I need to start polishing the template. 11:05 am

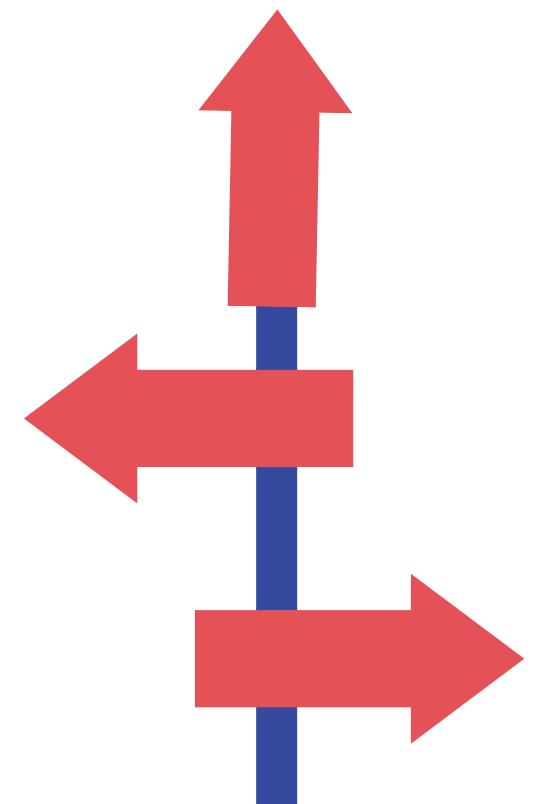

Kadji and Jakob replied

Miguel Silva There's still quite a bit of content missing from this deck. You can definitely start working on the template but we'll still be adding new slides. We also need help improving the charts if you have time! 11:16 am

Galen Gruman 12:48 PM Hi all. Let's see who discovers this channel, and how.

Martyn Williams 1:00 PM I found it ... but I got an email invite to it

Patrick Kenney 1:00 PM That sound you hear is Slack quacking in their boots. (Wait, I don't hear anything.)

Martyn Williams 1:23 PM I'm growing to like Slack because I'm now in 6 different accounts in the one app. Other groups I am part of have formed Slack accounts so it's dead handy to have everything together.

Patrick Kenney 1:01 PM So, "Chat" on the left-hand menu, is actually Skype for Biz, it would appear. That's actually kinda cool.

Martyn Williams 1:24 PM Well, those are some pretty important features. Sometimes it's good to get something into the market. And having that built-in connection to O365 is a good starting point.

Lutian Constantin 1:26 PM

A screenshot of the Microsoft Teams interface showing a channel named "tech-help". A message from Galen Gruman starts the conversation, followed by messages from Martyn Williams and Patrick Kenney discussing Slack integration and O365 connections.
